

2013-2017 Job Prospects

Job Prospects¹ presents labour market trends, over a five-year horizon, by occupation. It provides forecasts for nearly 500 occupational groups of the National Occupation Classification.

WHY USE JOB PROSPECTS?

Job Prospects can help in making informed choices and support medium-term decisions for:

- ◆ Choosing a career.
- ◆ Deciding to go back to school for several years.

There are three diagnostic levels of job prospects: favourable, acceptable or limited.

In this document, we present a list of the 50 occupations that qualified as positive for the Nord-du-Québec region. To find out more about the specifics of these jobs, see the websites below.

www.imt.emploi.quebec.gouv.qc.ca

Labour Market Information (LMI) Online describes the trades and occupations available in Québec and provides access to lists of companies by industry and region.
