

# Occupations in Demand in the Nord-du-Québec

1<sup>st</sup> semester of 2015

## Focusing on occupations in demand

Job offers are the sole source of information used to build the list of occupations in demand\*. These job offers for the Nord-du-Québec region are taken from the **Online Placement service** accessible through **[emploiquebec.gouv.qc.ca](http://emploiquebec.gouv.qc.ca)** and from newspapers. Occupations in demand may be related to seasonality or high labour turnover.

Building a list of occupations in demand improves our employability measures by analyzing the short-term needs of the labour market in the region. By providing a semi-annual overview of job prospects, Emploi-Québec gives businesses the opportunity to fill their vacant positions as soon as possible.

## **A FORCEful resource sector**

The list of occupations in demand covers all aspects of employment in the Nord-du-Québec region. In this regard, it provides accurate information about occupations available to current job seekers. For the first half of 2015, the Labour Force Survey showed that there was a gain of more than 3,000 positions in the resource sector, both in mining and construction, at the expense of consumer services. However, the occupations shown below confirm the changes in the market, with demand higher for jobs requiring a vocational, technical or professional level.

### **MANAGEMENT**

1. Facility operation and maintenance managers
2. School principals and administrators of elementary and secondary education
3. Mining operations director
